SUMMARY

Creative and results-oriented Software Engineer with a passion for front-end development. Skilled in front-end skills (JavaScript, React.js, Node.js, Tailwind CSS). I am currently seeking entry-level opportunities in front-end development.

EDUCATION

Bachelor in Computer Science

Tribhuvan University • Kathmandu, Nepal • 2016

Master of Technology (Software Engineering)

Federation University • Brisbane, Australia • 2023 • 4.917

PROJECTS

Portfolio in React.Js

Personal Project • github.com/PrabinMhzn/Portfolio • March 2024 - Present

- Developed a professional portfolio website using React.js, Vite, and Tailwind CSS to showcase skills and projects in web development.
- Implemented responsive design principles to ensure optimal viewing across various devices, enhancing user experience and accessibility.
- Utilized Vite for fast build times and Tailwind CSS for streamlined styling, achieving a modern and visually appealing interface.
- Designed and integrated dynamic UI components using React's component-based architecture, improving flexibility and maintainability of the website.

Musketeer- Grocery Comparision Mobile Application Development

Musketeer • github.com/PrabinMhzn/Musketeer-project.git • February 2023 - July 2023

- Utilized Firebase's real-time database and authentication services to ensure seamless data management and user authentication functionalities.
- Designed and implemented intuitive user interfaces using Flutter's widget library, enhancing usability and engagement for Musketeer users.
- Managed project communication and task alignment using tools such as Microsoft Teams and Trello, ensuring efficient collaboration despite startup constraints.
- Integrated Advanced Optical Character Recognition (OCR) technology for receipt scanning, significantly boosting app functionality and user convenience.

CERTIFICATIONS

React.Js Essential Training by Eve Porcello

LinkedIn Learning • 2024

- Developed skills in setting up development environments, testing applications with (Create React App), and utilizing Chrome tools for React debugging.
- Learned essential React.js concepts such as component-based architecture, JSX, state, and props.

FSD Front-End Development: UI Development with ReactJS

Skillsoft • 2024

- Gained experience in installing and configuring ReactJS, understanding the foundational concepts of components, and organizing components effectively within a React application and component routing, linking, and scaling for future development, as well as configuring forms for data posting and accessing external APIs for data retrieval and posting.

Scrum: Advanced by Kelly O' Connell

LinkedIn Learning • 2024

- Proficiency in Scrum methodology enhancing team collaboration, communication, and productivity.
- Agile project management skills ensuring adaptability and successful outcome in dynamic environments.

API Design: RESTful APIs

Skillsoft • 2024

- RESTful APIs are crucial for enabling different systems and applications to communicate effectively, a necessity in today's interconnected digital landscape.
- Knowledge of RESTful design principles ensures the ability to create scalable and efficient APIs, essential for handling growing data and user demands.

SKILLS

Programming Languages: HTML5, CSS3, JavaScript.

Frameworks/Libraries: Experience in React.js and Next.js.

Responsive Design: Experience with CSS frameworks (Bootstrap and TailwindCSS) for responsive and adaptive websites.

Version Control: Familiar with Git and GitHub for version control and collaborative development.

UI/UX Design: Understanding of UI/UX principles to create intuitive and user friendly interfaces.

Front-End Build Tools: Experience with Vite.
